Company Profile

Kam Kiu Aluminium Group (KAP), established in 1983, is an aluminium extrusion company on series 1-7 alloy, which employs over 2,300 people, possesses 30 direct extrusion presses, 4 indirect extrusion presses from 550UST to 6,180UST and 2 AirSlip casting systems. We have the compressive operation system including die design and manufacturing, billet casting, extrusion, surface treatment and precision machining. Our aluminium product covers high end electronics products, automotive, transportation, vessel, industrial applications, building and construction etc. Kam Kiu Aluminium Group is certified with ISO9001, IATF16949, automotive standard; DNV, Norway marine standard; BV, France ship standard; CCS, China ship standard; ISO14001, environmental standard; OHSAS18001 occupational health and safety standard etc.

Process

Remelting

- Ultrasonic flaw detection in Aluminium billets.
- On-line hydrogen degassing system, cartridge filter systems.

Extrusion Process

Kam Kiu possesses 34 extrusion presses equipped with power frequency cascading furnace, online water quenching system, annealing furnace, quenching furnace. The annual output is 140,000 tons.

Precision Machining

Kam Kiu is equipped with 3-axis to 5-axis CNC precision machining centers in order to provide our customers with one-stop-shop services.

Surface Treatment

Kam Kiu has several anodizing lines, for producing anodized, colored and polished extrusions for the length up to 8.5 meters; in the meantime, we also have several powder-coating and spray painting lines.

Testing Centre

Kam Kiu has a completed testing system to guarantee the consistency of product quality and to meet the requirements of our customers.

Certification

ISO9001:2015

IATF16949:2016

ISO14001:2015
GB/T24001:2016

OHSAS18001:2007

Product introduction

Taishan Kam Kiu Aluminium Factory Co., Ltd serves worldwide demands of high quality aluminium products and precising machining services on doors and windows.
